RESPONSE TO NOTIFICATION OF DEFECTIVE RESPONSE
FOR U.S. PATENT APPLICATION NO. 09/914,549

Commissioner for Patents
Box PCT
Washington, DC 20231

Sir:

Responsive to the July 26, 2002 Notification of Defective Response, the following documents are enclosed and submitted herewith:

- 1) Statement of Identity
- 2) Sequence Listing (paper copy & diskette)
- 3) Copy of July 26, 2002 Notification of Missing Requirements

Applicant is submitting herewith a replacement computer readable disk containing the sequence disclosed in the present application. The original sequence listing was submitted in PatentIn 2.0, a format that provides for a nucleotide sequence and corresponding amino acid sequence combined under a single sequence identifier. Applicant is resubmitting the amino acid sequence in the PatentIn 3.1 format which is similar. As such, applicant is requesting that the Sequence Listing submitted herewith replace the copy of PatentIn 2.0 sequence listing originally submitted. Applicant states that the sequences are identical but in a different version of PatentIn software and that no new matter has been introduced in the sequence listing submitted herewith.

No fee is required in connection with this response.

Respectfully submitted,
